

LazrSPEED® WideBand OM5 Solution

Global Communication

To meet the challenges associated with escalating data rates and the ongoing need to build cost effective infrastructure that can support bandwidth needs today and in the future, CommScope announces **LazrSPEED 550 WideBand Multimode Fibre (WBMMF) OM5 cabling solutions**. This new solution enhances the ability of short-wavelength division multiplexing (SWDM) technology to provide a minimum four-fold increase in usable bandwidth while maintaining compatibility with current OM3 and OM4 fibres and supporting all legacy multimode applications

Features and Benefits of SWDM and LazrSPEED 550 WB OM5 Solution:

- Compliant with OM5 specifications (to be published in IEC 60793-2-10 edition 6)
- Retains legacy application support of OM4 and OM3
- Compliant with ANSI/TIA-492AAAEspecification for Wideband Multimode Fibre (WBMMF)
- Increases capacity to > 100G per fibre with SWDM
- Enables single-pair Ethernet at 40G and 100G
- Enables single-pair Fibre Channel at 128G
- Reduces parallel fibre count by factor of 4
- Extends MMF utility as universal medium
- Matches footprint of InstaPATCH® 360DM module
- Fits existing 360G2, UHD and HD fibre shelves

Ordering Information:

24f InstaPATCH® 360DM Module

MID	Product Code	Description
760217950	360DMis-24LC-WB	InstaPATCH® 360 LazrSpeed® WideBand Module, 12 Duplex LC Ports, Internal Shutter
760210609	360DM-24LC-WB	InstaPATCH® 360 LazrSpeed® WideBand Module, 12 Duplex LC Ports, External Shutter, iPatch-Compatible

InstaPATCH® Low Loss Trunks
