

Next Generation Uniprise® Category 6A U/UTP Cable – North America Only

CommScope introduces the CS44PSD - the next generation of Uniprise Category 6A U/UTP small diameter cable. It maintains the same trusted performance of its predecessor (CS44P) at a smaller cable diameter. The CS44PSD retains its cross-web separator design for reliable near-end crosstalk (NEXT) performance and robust cable structural integrity.

- Cable diameter reduction from 0.265 inch to 0.249 inch (6.325 mm) compared to previous generation
- Cross-web separator for optimal NEXT margin and stable cable structure

First Availability: June 1, 2022 order date

General Availability: Q3, 2022
